If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

Claims 1-14 and 16-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor suggest, in the claimed combination, an actuating apparatus for operating a drive, steering or retardation means of a motor vehicle, comprising a shaped body that has compression characteristic with regions of different compression in respect to volume, where a region of low level of compression in respect of volume provides for a substantially linear relationship between compression stroke distance S and mechanical energy E, while a region of high compression in respect of volume provides for an over-proportionally non-linear relationship between the compression stroke distance S and the mechanical energy E. [see Applicants remarks pages 1 and 2].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, filed 10/23/2009, with respect to amended independent claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn.
